WBA-24/25-SS2

WORLD BILL ACCEPTOR

JCM introduces the WBA-24/25-SS2, specially designed to accept the wider Euro Currency (up to 82mm).

SECURITY

The WBA uses five types of sensing technology, including optical and magnetic, which detect counterfeits for maximum security.

EFFICIENCY

The WBA-24/25-SS2 provides the highest acceptance rate relative to other bill acceptors in the industry. The rate may vary due to bank note quality.

QUALITY

The WBA-24/25-SS2 is manufactured with the same quality standards as all the JCM superior products.

SPEED

The WBA-24/25-SS2 acceptor provides fast validation speed. The notes are stacked in approximately five seconds.

UNIQUE

The WBA-24/25-SS2 acceptor-, transportation- unit and cashbox are engineered to be wider to specifically accommodate the Euro currency, while maintaining the standard frame size. The WBA-24/25-SS2 uses new gray parts to distinguish the SS2 from other WBA models.
